You can count on the experience and skill of Dr. Scott Compton for advanced bone and joint care.

From athletic and work-related injuries to total joint replacement, Dr. Compton provides comprehensive care for both adults and children.

Work Injury Solutions

When you're hurt on the job, we work hard to get you back to work quickly and safely. If your injury is covered by Workers' Compensation, we'll work directly with your case manager to ensure a smooth and timely process.

Sports & Athletic Injuries

From the competitive to the casual athlete, Dr. Compton has effectively treated nearly every kind of sports injury. He's worked with athletes of all ages and abilities. Dr. Compton always has one goal in mind: getting you back in the game as soon as possible.

Advanced Bone & Joint Care

Before surgery is ever considered, Dr. Compton will explore all other available medical options, without delaying treatment or pain relief. However, if

surgery becomes necessary, you'll receive the most effective, proven procedures available. Dr. Compton has the skill and technology to replace shoulder, hip and knee joints that have been damaged beyond repair. When possible, he uses minimally invasive surgical techniques that often require no longer than an overnight stay.

Major Surgery with Minor Incisions: Scope Surgery

Dr. Compton was one of the first surgeons in the area to offer minimally invasive arthroscopic shoulder surgery. This procedure offers smaller scars, less pain and a faster recovery for you. Dr. Compton uses the most advanced arthroscopic shoulder and knee procedures available. He also specializes in arthroscopic rotator cuff repair. His goal is to get you back on your feet and moving again as quickly as possible.
