The Sheldon Family Medical Clinic is a hospital-based rural health clinic, established in 1998, to meet the primary healthcare needs of Vernon and Barton County residents. The mission of SFMC is to provide quality healthcare with an emphasis on patient comfort and convenience.

We provide preventive and primary healthcare for all ages, including immunizations, diagnosis and treatment of acute health problems and management of chronic disease. A network of specialty physicians is available if referral is needed. We maintain a Rural Health Certification and a College of American Pathologist Certification in our laboratory.

### **Our goal is to give our patients:**

- High quality healthcare at an affordable price
- Personal, confidential and professional healthcare
- A relaxed, friendly environment
- Attention to your personal medical needs
- Prompt scheduling with little wait time in the office

### **Our staff works as a team to achieve the goal of high quality healthcare.**

Appointments are preferred, but walk-ins are welcome. We work walk-ins into the schedule of appointments already established. Emergency walk-ins will be seen immediately based on need.

Medications are refilled within 24 hours. Ask your pharmacy to fax us a request for faster refills.
